

# GUARDIAN™ ULTRA-VIOLET NITRILE GLOVES

## ULTRA FEATURES

- **ENHANCED STRENGTH:** 7mil thick for added protection from accidental punctures, tears or leaks
- **MAXIMUM PROTECTION:** 12" length for extended protection over the wrists and fore-arms
- **CHEMICAL RESISTANCE:** tested to resist penetration from chemotherapy drugs and fentanyl per ASTM D6978
- **MEDICAL GRADE:** Conforms to ASTM D6319 FDA 510(K) Registration
- **FINGER TEXTURED:** Enhanced grip and tactile sensitivity
- **ACCELERATOR-FREE NITRILE:** no natural latex, reducing the risk of skin irritation
- **BEADED CUFF:** reduced risk of roll downs and allows for easier donning and doffing
- **CHLORINATED & POWDER-FREE**
- **COLOR:** Nobel-Violet
- **HIGHEST QUALITY STANDARDS:** Manufactured to ISO 9001, 13485:2016, and MDSAP quality mgmt. system.

The Guardian ULTRA-VIOLET nitrile gloves offer ULTRA protection in dynamic and high-risk environments without sacrificing comfort or durability. With greater than 7mil thickness, they provide greater resistance to punctures and abrasions. The perfect choice for workers in healthcare, sciences, industrial applications and first responders. They are rigorously tested to the highest industry standards and provide proven resistance to chemicals, cytotoxic drugs, and Fentanyl

\*Meets NFPA standards for Single-Use Emergency Medical Examination Gloves
